

Remarks:

Claims 24-27 were cancelled in the parent application without prejudice to presenting them in a continuation application, which is now being done. Also, several dependent claims have been presented again, but amended to be dependent on claims 24-27. The other original claims have been canceled. New claim 31 has been presented, which parallels original claim 30.

Respectfully submitted,

Dated: November 13, 2003
